

# How to Safely Wear a Face Covering

**Before putting on the mask, wash your hands, and secure hair away from your face.**

**Place the mask snugly over your mouth and nose, making sure there are no gaps.**

**Avoid touching your face and mask while using it. Do not leave the mask on your neck, forehead, or hanging from your ear.**

**Change your mask as soon as it gets damp or soiled.**

**Remove the mask without touching the outside of the mask.**

**Wash your hands and clean any surfaces that the dirty mask touches.**

## Remember

Throw disposable face coverings out into a lined garbage bin.

Launder reusable face coverings frequently.

Do not share your face coverings with others.

Do not leave any discarded face coverings in shopping carts or on the ground.
