

# Summary of Additional Protective Measures in KFL&A Region

Additional proactive protective measures are required to reduce disease transmission within the community and to protect local businesses, schools, organizations, health care resources, workers, and residents.

---

Sunday,

## **December 19, 2021**

Letter of Instruction for businesses and organizations to reinstate capacity limits and physical distancing requirements, as well as additional requirements related to sports and competition.

Monday,

## **December 13, 2021**

Making available COVID-19 take home PCR test kits for patients at participating family health care teams.

Section 22 Class Order to businesses that serve food and offer seating in their food premises in the City of Kingston. The requirements of the Order address capacity limits at social gatherings, organized public events, and in food establishments.

Opened clinic appointments for expanded booster eligibility to individuals aged 50 years and older.

Saturday,

## **December 11, 2021**

Letter of Instruction for businesses and organizations to implement strict mask use and an expanded list of symptoms for screening staff and patrons.

Friday,

## **December 10, 2021**

Strengthened approach for all positive COVID-19 case and contact requirements.

- All close (high-risk) contacts must self-isolate for 10 days from the date of their last exposure of an individual with COVID-19,

regardless of their vaccination status or previous positive result. Regardless of a negative PCR test result, they are still required to self-isolate for 10 days from their last date of exposure.

- All close (high-risk) contacts must seek PCR testing on or after day 7 as a clearance test, regardless of symptoms. If they do not complete a day 7 testing, they are required to self-isolate for an additional 10 days, or until they receive a negative test result.
- If a close (high-risk) contact of a person positive with COVID-19 is unvaccinated, their household members (regardless of immunization status) must also isolate until the close contact has a negative PCR test on day 7.
- If new symptoms occur, seek additional PCR testing immediately.

Monday,

## **December 06, 2021**

Letter of Instruction for businesses and organizations to enforce required proof of vaccination for first dose COVID-19 vaccine or a valid medical exemption for individuals 12 to 17 years participating in indoor organized sports and recreation activities. A full series proof of COVID-19 vaccine required by February 25, 2022.

Saturday,

## **November 27, 2021**

Section 22 Class Order to restrict indoor social gatherings

in private dwellings to no more than 10 people and for hosts to maintain a list of names and contact information for guests.

Tuesday,

## **November 23, 2021**

COVID-19 vaccination bookings opened for children 5 to 11 years of age to help keep kids safe from serious side effects of the COVID-19 virus.

Monday,

## **November 22, 2021**

Implemented additional screening requirements for students, staff, and visitors for school attendance. Symptoms included sore throat, difficulty swallowing, runny or stuffy nose, abdominal pain, headache (that is unusual or long lasting), conjunctivitis (pink eye), and decreased or lack of appetite.

Wednesday,

## **November 03, 2021**

Opened clinic appointments for expanded booster eligibility for individuals aged 70 years and older, health care workers and designated care givers in congregate settings, individuals who received complete series of viral vector vaccine, and First Nation, Inuit, and Metis adults.

Tuesday,

## **October 05, 2021**

Letter of Instruction for businesses and organizations to enforce required proof of vaccination for volunteers, coaches, and officials participating or associated with indoor organized sports and recreation activities.
